BASc, Electrical and Electronics Engineering · 2020 - 2025

Brigham Young University - Idaho

Bachelor's degree, Information Technology · 2025 - 2028

James Solomon

Full-stack Developer · Web and Mobile

SUMMARY

Solution-focused full-stack developer with 5+ years of experience building web and mobile applications. Strong in React, Next.js, React Native, Node.js, MongoDB, TypeScript, and Tailwind CSS, with hands-on experience shipping client products, landing pages, dashboards, and mobile app features.

EXPERIENCE

Fitness Space · Full-stack Developer Nov 2023 - Present

- Build frontend and backend features for the landing page and mobile application.
- Work across React Native, React.js, Node.js, and MongoDB to support product growth.

Eloquent Exchange · Full-stack Developer Feb 2025 - Apr 2025

- Delivered a polished business website for a financial exchange client.
- Built responsive UI flows with Next.js, TypeScript, and Tailwind CSS.

Cyberverdict · Full-stack Developer Oct 2023 - Jun 2024

- Implemented frontend and backend features for a cybersecurity-focused web platform.
- Used React.js, Tailwind CSS, TypeScript, Node.js, and MongoDB.

Greenie Web · Full-stack Developer / Intern Jun 2023 - Nov 2023

- Contributed to frontend and backend tasks across web and desktop products.
- Worked with React.js, Electron.js, Node.js, TypeScript, MongoDB, and advanced regex workflows.
